New Baseball Field

Grand Blanc Highschool is making a new baseball field and it looks amazing!

Grand Blanc Highschool is in the process of making a brand-new baseball field. Their previous baseball field was not very popular and was not very good for playing on. They are making new dugouts, a new commentating stand, and more seating for others to watch the game.

The head coach is *very* excited about this new field and says "As more and more people started playing baseball and more people started watching, we knew we needed a better field to play on and for more fans to watch."

Many players are very excited to have a new field to play on and the fans are ready to see some amazing games played on the new field.
